DOWNLIGHTS
TAYLOR LED CCT3 SELECTABLE

TAYLOR
7W, 9W and 10W LED CCT selectable LED

Dimmable DownlightThe TAYLOR LED Downlight from ROBUS is the natural evolution of the IMPACT range allowing the installer to choose the Correlated Colour Temperature (CCT) depending on the installation requirements.
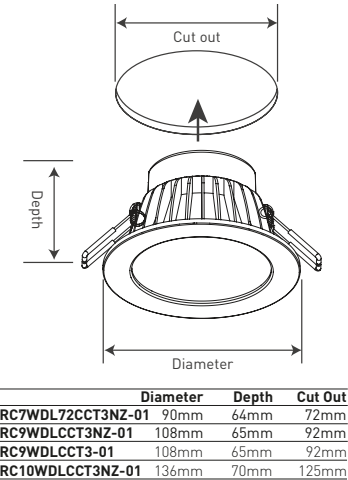

This high quality downlight is available with the option to choose warm or cool or daylight white and provides uniform and shadow free light output. Comes with an integral driver and is pre-wired with flex and plug top for fast and simple installation.

The aesthetic is neat, unobtrusive and ideal to retro-fit into existing apertures. This downlight achieves a rating of IC-4 and IC-F as specified in Appendix ZZ of ASNZS 605-98-2-2:2016 for installation in voids and insulation coverage.

TAYLOR is ideal for installation in entertainment venues, domestic, commercial or retail applications as task, complementary or the main light source and exceeds the performance of traditional halogen by some margin with exceptional light output combined with long life.
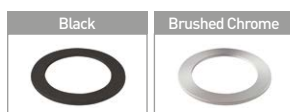

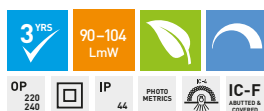

TAYLOR LED CCT3 selectable

- Suitable for use in residential, offices, retail shops, reception areas, hotels, restaurants, bars & clubs, showrooms
- Aluminum housing encased in thermally conductive plastic with opal diffuser
- Integrated driver pre-wired with choice or loop in loop out terminal or 0.6m of flex and plug with 9W fittings
