Z-MAX Patch Panels

With recent expansions within the Z-MAX product offering and to minimize confusion we have decided to remove the category from the part number scheme of our empty Z-MAX panels. The Z-MAX panels are divided into two basic systems, one type of panel for UTP systems and another for screened systems. Within each system the same panels can be used regardless of outlet performance.

With changing the part number and removing the category from the part number scheme we hope to minimize any confusion on which panels can be used within each system.

• Kitted panel and outlet part numbers will not be changed.
• Pricing will not change.

AFFECTED PRODUCTS

Old Part Number	New Part Number	Description
Z6AS-PNL-24E	ZS-PNL-24E	Z-MAX Shielded 24 port flat panel, 1 RMS, empty
Z6AS-PNLA-24E	ZS-PNLA-24E	Z-MAX Shielded 24 port angled panel, 1 RMS, empty
Z6AS-PNL-U48E	ZS-PNL-U48E	Z-MAX Shielded 48 port flat panel, 1 RMS, empty
Z6AS-PNLA-U48E	ZS-PNLA-U48E	Z-MAX Shielded 48 port angled panel, 1 RMS, empty
Z6A-PNL-24E	Z-PNL-24E	Z-MAX UTP 24 port flat panel, 1 RMS, empty
Z6A-PNLA-24E	Z-PNLA-24E	Z-MAX UTP 24 port angled panel, 1 RMS, empty
Z6A-PNL-U48E	Z-PNL-U48E	Z-MAX UTP 48 port flat panel, 1 RMS, empty
Z6A-PNLA-U48E	Z-PNLA-U48E	Z-MAX UTP 48 port angled panel, 1 RMS, empty

OTHER CONSIDERATIONS
• Due to the nature of this change we do not anticipate any returns or exchanges

Angled Z-MAX panels

Available in 24 / 48 port configurations
UTP / shielded versions

Flat Z-MAX panels

Available in 24 / 48 port configurations
UTP / shielded versions
