

No more power shortage

with the **awesome foursome**

Mounting Block enables
surface wiring with either
conduit or mini duct.

Awesome Versatility

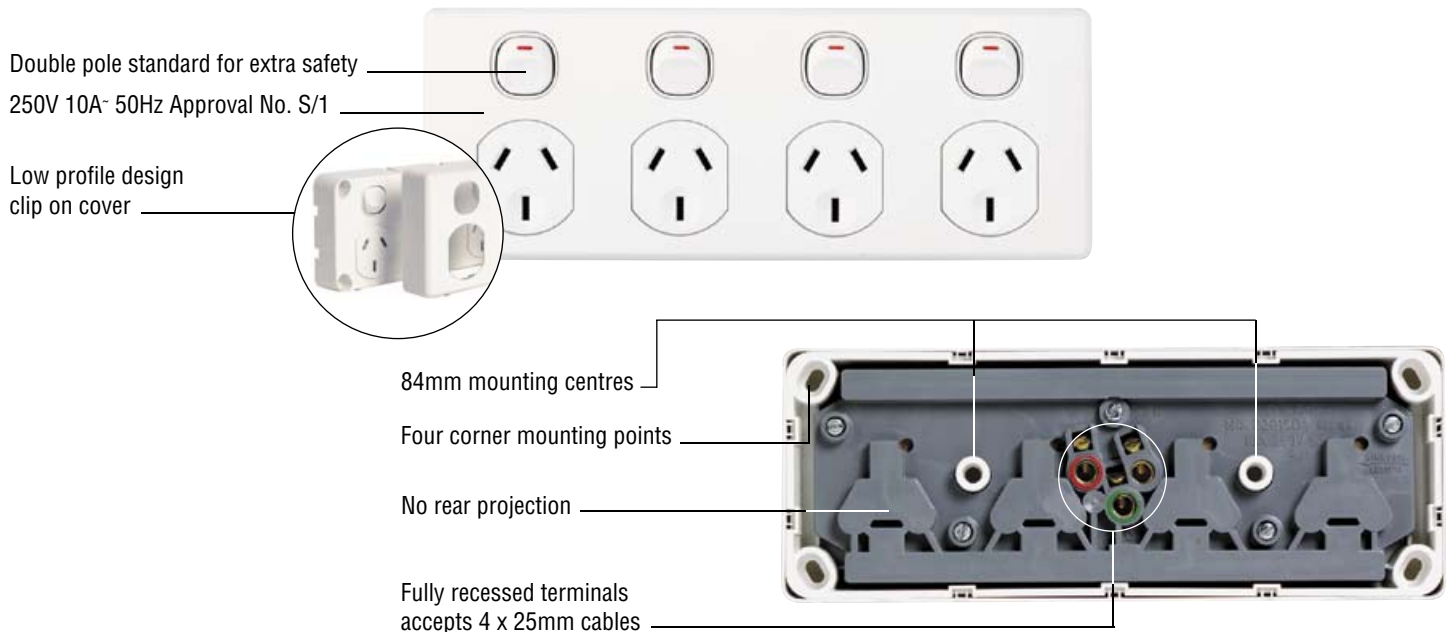

Fourward thinking

Life was much simpler when the twin power outlet was first developed. There were no videos, CD players or faxes, and rice cookers and breadmakers were people, not kitchen appliances.

Although the number of electrical appliances per home has increased dramatically since then, the number of outlets per switchplate has not kept up with the pace.

Now we've developed a switchplate with double the outlets and double the convenience all rolled into one. Never again will you have to unplug one appliance to make room for another or endure the clutter of powerboards lying all over the floor.

Awesome Features

Where the Foursome is Awesome

Kitchen

One outlet for the toaster, one for the kettle, with two spare for the food processor and breadmaker!

Living Room

The popularity of home theatre has brought the TV, video and stereo together - two outlets simply aren't enough.

Workshop

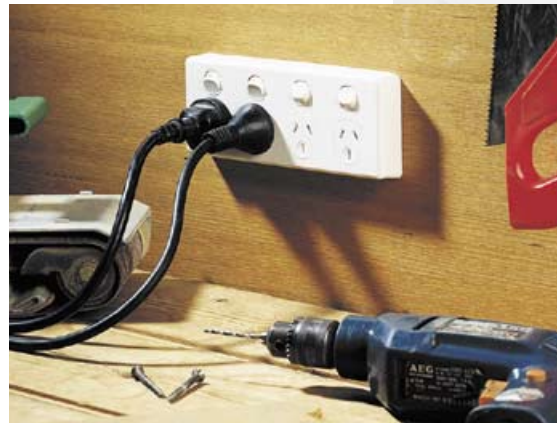

In an area with so many power tools, a four gang switched power outlet makes perfect sense.

Bedroom

Two bedside lamps, a clock radio and an electric blanket, that's four outlets already.

Office

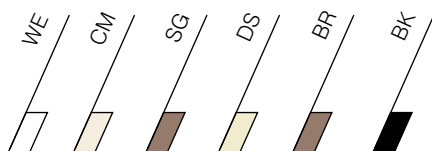

Your average commercial or home office has a computer, printer, and often a fax and photocopier - that's four plugs just for starters.

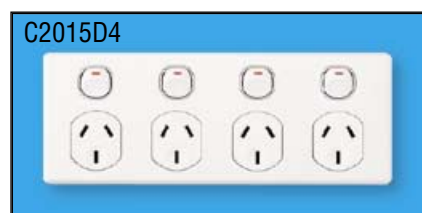

Awesome Colours and Options

The power outlet is available in six colours; White Electric (WE), Cream (CM), Soft Grey (SG), Desert Sand (DS), Brown (BR) and Black (BK).

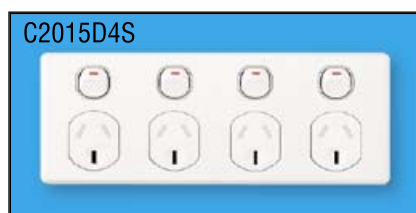

The C2015D4 can be purchased with safety shutters (S), Neon indicators (N) and with identification facility (I). As with other C2000 Classic products, the clip on cover can be purchased as a separate item (C), enabling you to create your own colour combinations.

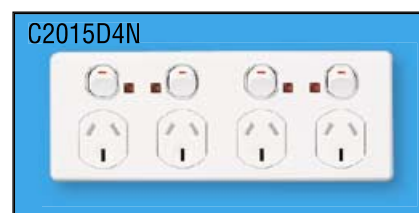

Products Available

Four gang switched socket - double pole

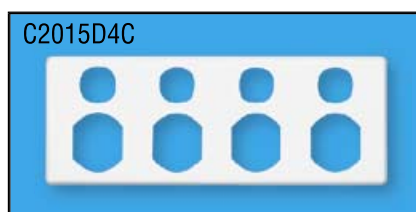

Four gang switched socket - double pole with safety shutters

Four gang switched socket - double pole with neon indicators and safety shutters

Identification Kit for C2015D4 Series

Cover only for C2015D4 Series

The shape of the switch dolly is a trade mark of Gerard Industries Pty Ltd

Accessories

Clipsal's four gang outlet is now more versatile than ever thanks to a mounting block that enables surface wiring with either conduit or mini duct.

Features:

- Entries on all sides for total flexibility.
- Four sturdy fixing points for easy mounting.
- Plenty of wiring room for easy installation.

A Backing Plate is available to provide additional safety on conducting surfaces.

Catalogue Number	Description
C2015D4MB	Mounting Block to suit C2015D4 outlets.
C2015D4P	Backing Plate to suit C2015D4MB.
