STAINLESS STEEL CABLE TIES

Roller Ball (ball lock) cable ties

- Stainless steel grade 316 cable ties
- Stainless steel cable tie with unique ball locking mechanism allows the cable tie to be quickly and easily installed
- Easily install much quicker than traditional metal strapping systems
- Stainless steel cable ties are used in environmentally harsh conditions including outdoors, underground, marine oil rigs etc. suitable for indoor, outdoor and underground applications
- SS316 roller ball lock cable ties with superior corrosion resistance
- Strong and durable tie for bundling applications in severe environmental conditions
- SS316 is especially durable against water or salt spray
- Easy installation by hand or cable tie gun, WATSSCTG

Roller Ball (ball lock) cable ties with epoxy coating

- SS316 Stainless steel cable tie with black epoxy coating provides excellent resistance to chemical and salt spray
- Coating provides extra protection to cables to help prevent damage
- Coating also provides additional insulation between cable tie bundle materials

Stainless Steel cable tie gun

- The WATSSCTG is a tensioning and cable tie cut off tool for use with WATTMASTER's range of SS316 cable ties
- Once the cable tie has been tightened push down on the round steel bar on the side to easily cut off the excess cable tie
